

Hasan Ahmati

Harrow, London | +44 7361237329 | ahmati.hasan1@gmail.com | [GitHub](#) | [LinkedIn](#)

EDUCATION

University of Greenwich

Greenwich, London

BEng Hons Computer Science

2022 - 2025

- Passed 1st year with 82% avg and 2nd year with 78% avg
- Vice President of AI Society and part of Greenwich Coding Club

Sami Frasheri High School (Overall result: 9.7/10)

Tirana, Albania

High School

2019 - 2022

- Winner of a scholarship from the municipality of Tirana for 2 years due to academic success and a certificate of appreciation from the high school

PROJECTS

Golden Ratio Detector in 2D Logos – Python, Deep Learning, Custom Dataset (In progress)

- Developing two models, a deep learning approach and mathematical calculation-based method based on a custom-build dataset to evaluate logo alignment with the golden ratio aesthetics

London Tube Network: Find the shortest path between 2 stations – Python

- Developed a program using Dijkstra and Bellman Ford Algorithm to find the shortest path between start and destination stations for the whole London Tube Network

Credit card fraud detection system - Python

- Created a Convolutional Neural Network model that classifies fraud and non-fraud credit card transactions using under-sampling technique to balance the dataset

Recommendation System - Python and Scheme

- Employed Object-oriented programming techniques to design and develop a recommendation system in Python and Scheme programming language

Group-based client - server communication - Java

- Implemented a command-line interface client-server application in Java to demonstrate the principles of socket programming in communication in a network distributed system

WORK EXPERIENCE

University of Greenwich.

Greenwich, London

IT Service Desk Analyst

September 2024 – Present

- Assisting students and faculty members with first and second-line assistance, identifying and troubleshooting IT issues. Collaborating with staff at different levels to guarantee smooth operations

ARALB Electrical

London

Apprentice electrician (seasonal worker)

October 2022 – July 2024

- Worked in an electrical company as an apprentice electrician to support university's costs

Tring TV

Tirana, Albania

IT Specialist Internship

May 2022- July 2022

- Contributed to network monitoring and troubleshooting to guarantee smooth operations and helped with hardware and software issues. Developed analytical thinking and problem-solving skills through addressing problems in real time

LEADERSHIP EXPERIENCE

University of Greenwich – AI Society

Greenwich, London

Vice-President

January 2024-Present

- Leading a team of 3 members, coordinating event logistics and speaker engagements. Expanding the number of active members and participants in our events
- Organized a Talk on Data and AI Insights and a Hackathon in partnership with 6point6

SKILLS & INTERESTS

Technical Skills:

- Python (NumPy, Pandas, SciKit-Learn, TensorFlow, Matplotlib), Java, Kotlin, Scala, Scheme, Scripting, R, SQL, Hadoop & Hive.
- Version Control (Azure DevOps, Git)
- Web development (HTML, CSS, WordPress, JavaScript), Microsoft 365
- Neural Networks (ANN, CNN, LSTM, RNN)

Soft Skills:

- Problem-solving, strong analytical skills, teamwork, adaptability, troubleshooting, communication, time management, critical & logical thinking, leadership potential, attention to detail, multitasking, collaboration, creativity, resilience.

Interests: Learning new languages (multilingual in English, Albanian and Italian).
